

COLOR YOUR SPACE

UNIVERSE

UNIVERSE

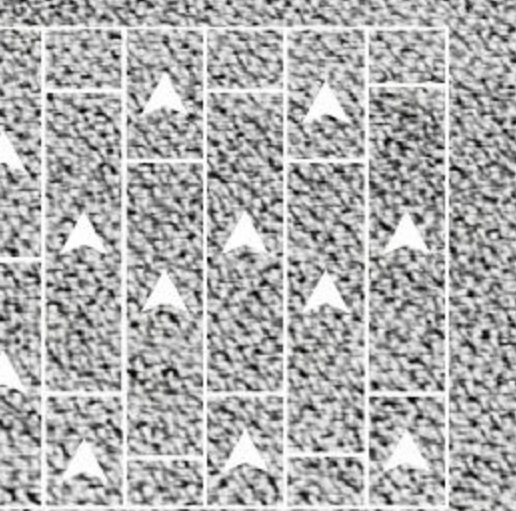

Innovflor
Urban landscapes underfoot, natural boundaries redefined. Universe captures the modern rhythm of the metropolis with its abstract texture of intertwining skyscrapers and streets.

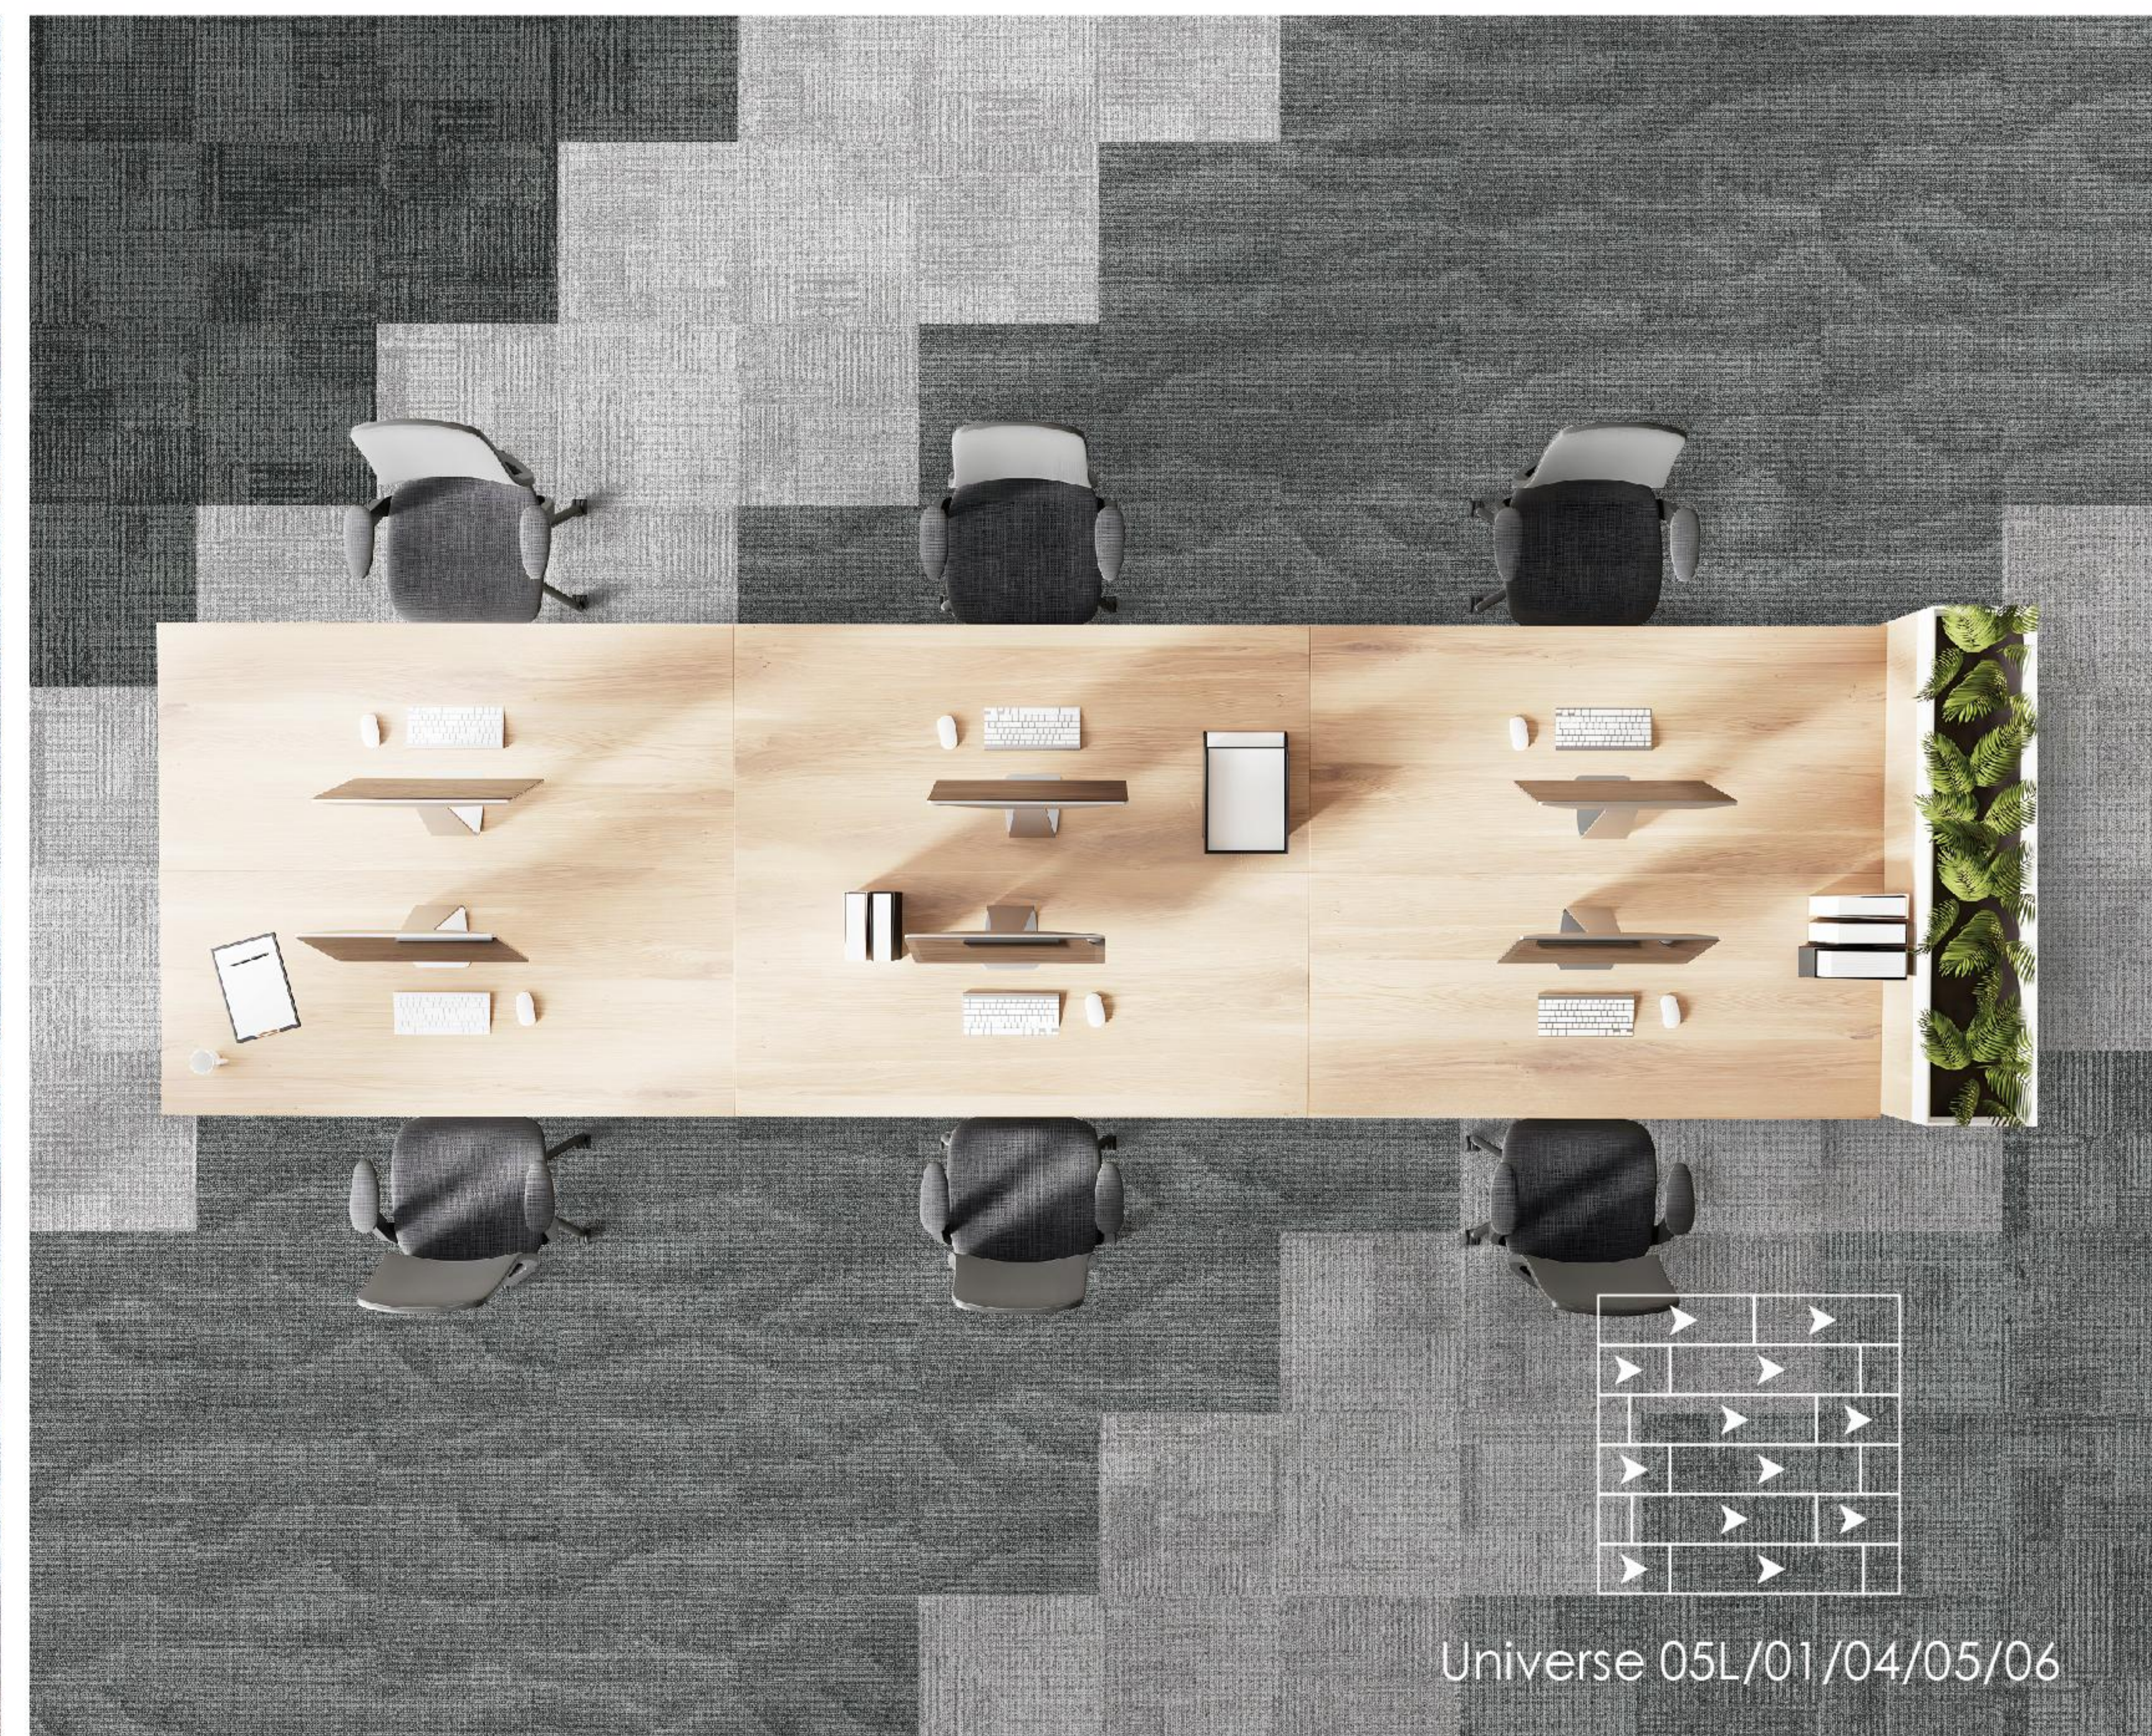

Color your space

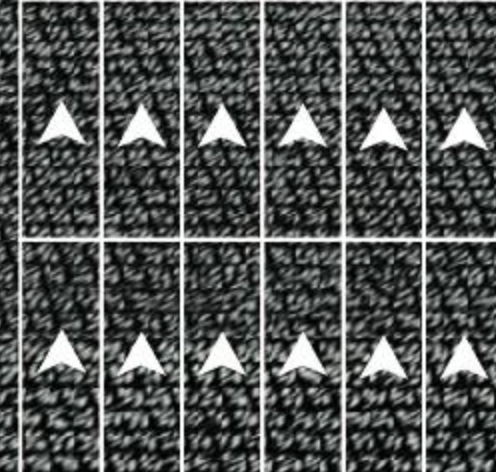

From city skylines to desert horizons, from pixels to nature's pixels—we tell stories of people and space through carpet. Every step you take writes a new paragraph.

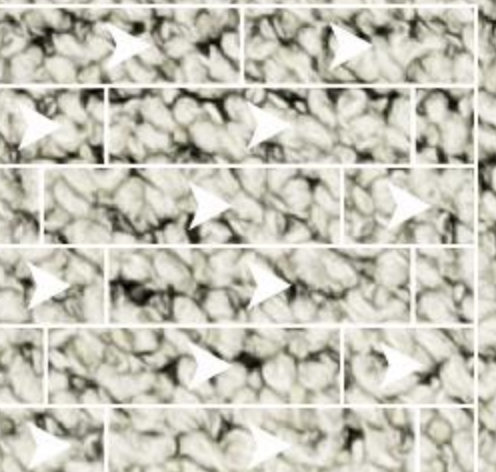

Universe brings the calm of open deserts and gentle grasslands into high-rise life; Universe turns the organized chaos of downtown into a walkable art piece. This is where contrasts harmonize—where you can step from a bustling street scene into a serene natural escape, one module at a time.

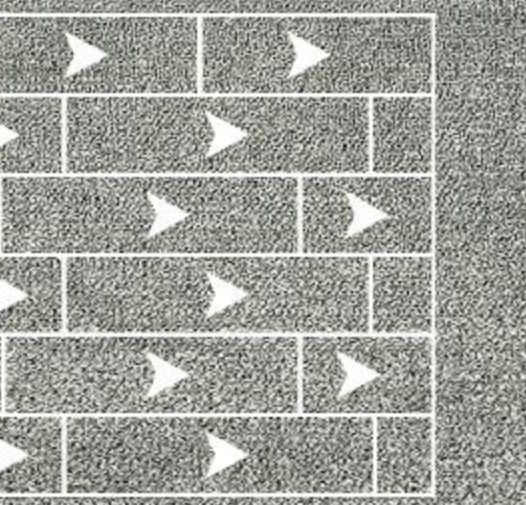

universe 01L/06L

universe 01L/06L

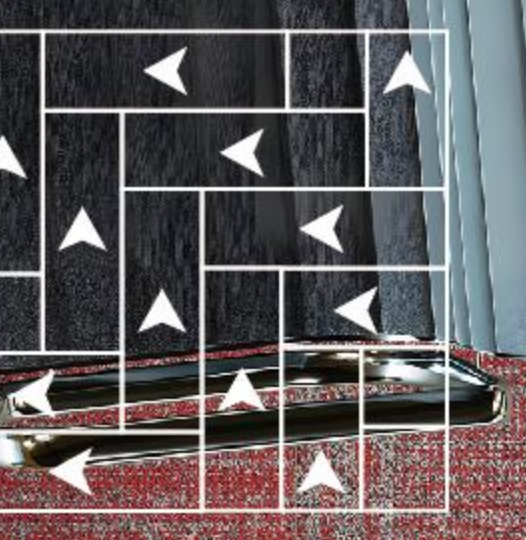

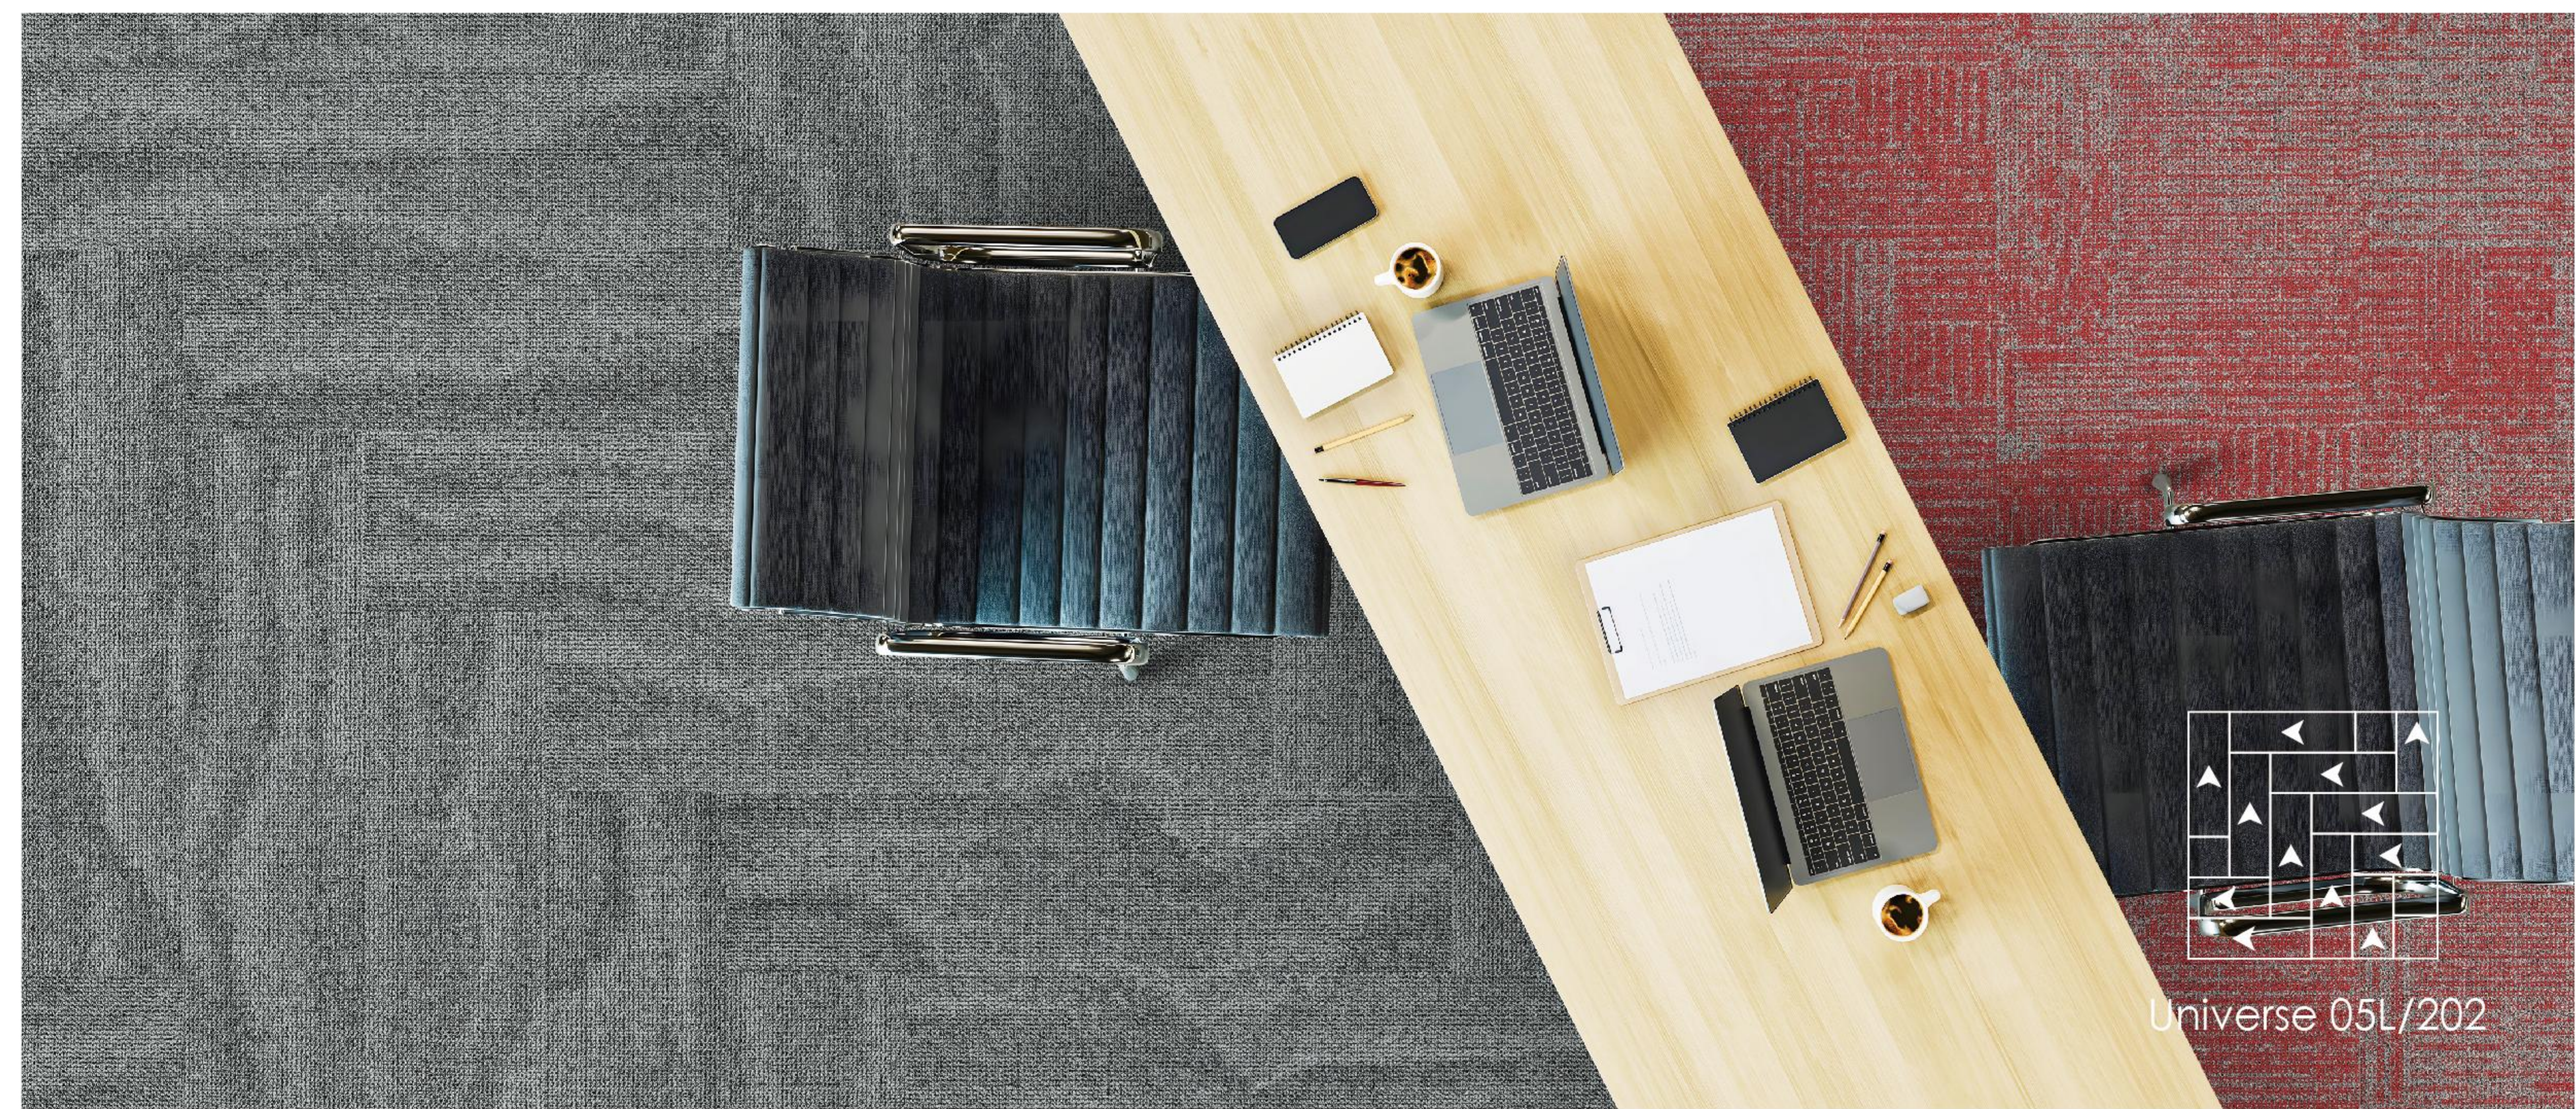

Universe 201L

Universe 03L/201L/202L

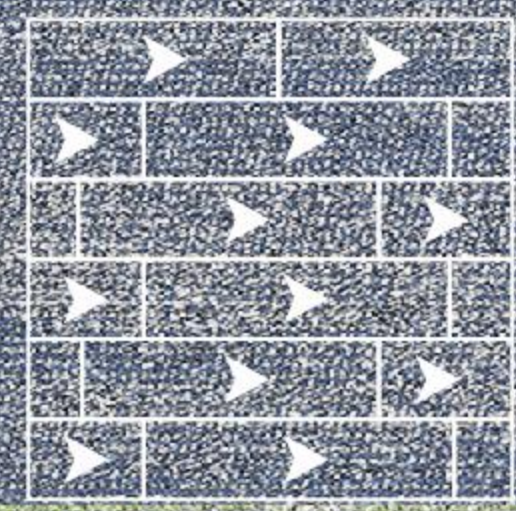

Universe uses geometric lines in cool grays and deep blues to outline urban rationality and order; Universe employs gradient textures in warm sand and moss green to depict the raw yet gentle power of nature..

Universe 05L/202

Whether for the focused efficiency of an office or the relaxed warmth of a living space, Universe adapt to shift the atmosphere. Use individually for zoning or together as an art installation—redefining “art underfoot.”
With Universe, every step becomes part of a larger narrative. Arrange the carpet tiles to reflect your rhythm—create pathways that mimic urban grids or soft transitions that echo natural landscapes.

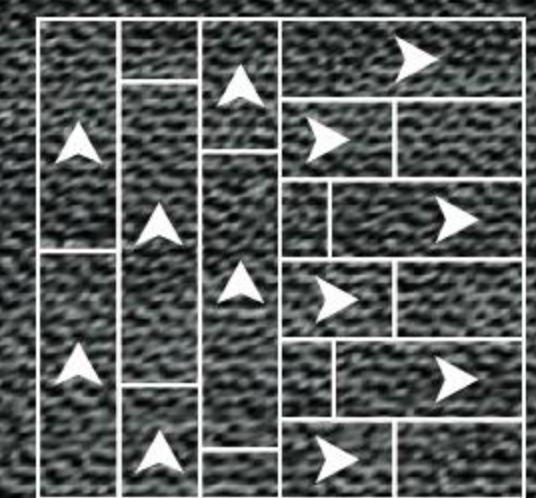

Universe 201L/401L/402L

Universe is from the dialogue between city and nature. One captures the modern rhythm of intertwined skyscrapers and streets, the other draws from the vast poetry where desert meets grassland. This is more than a carpet—it's a crossover of space and imagination.

Universe 401/01L

Universe 02L/06L

Universe 02/201

Between the pulse of the city and the silence of the desert lies a moment of inspiration—Universe lives in that balance. Each tile is a tangible fragment of urban energy or untouched landscape, thoughtfully designed to transform not just floors, but the way people feel within a space.

More than flooring, it's functional art. Universe carpet tiles merge precision-cut patterns with plush texture, offering visual intrigue and underfoot comfort. Ideal for designers, creators, and dreamers—elevate everyday floors into expressive surfaces that inspire and endure.

UNIVERSE

SPECIFICATION:

| | |
|------------------------|----------------------|
| Face yarn: | NTSR® |
| Dye method: | 100% Solution dyed |
| Gauge: | 1/12 |
| Pile weight: | 600g/m² (±5%) |
| Total weight: | 4800g/m² (±5%) |
| Pile height: | 4.0mm (±0.5mm) |
| Total height: | 6.6mm (±0.5mm) |
| Backing: | PVC |
| Size: | 50cm*50cm/25cm*100cm |
| Dimensional stability: | ≤0.2% |

PERFORMANCE

| | |
|------------------------------|-----------------------------------|
| Classification: | 33 |
| Castor chair rating: | A: intensive use |
| Fire classification : | Bf1-S1 |
| Soil resistance : | 2-3 grade ISO11378-2: 2001 |
| Permanent antistatic: | ≤2kv AATCC134-2016 |
| CDPH/EHLB/EURO Standard | |
| Method V1.2 (January 2017) : | Pass |
| Colour fastness to light: | 6 grade QB/T 2755-2005 |
| Colour fastness to water: | 4-5 grade QB/T 2755-2005 |
| Rubbing fastness: | 4-5 grade QB/T 2755-2005 |
| Indoor air quality: | |
| (GB18587-2001 A grade) | TVOC ≤0.500mg/m³h |
| | Formaldehyde ≤ 0.050mg/m³h |
| | Styrene ≤ 0.400mg/m³h |
| | 4-phenylcyclohexene ≤ 0.050mg/m³h |
